PROFESSIONAL SUMMARY

Cybersecurity-focused final-year B.Tech student specializing in SOC operations, VAPT, and threat analysis. IEEE published author with 3 papers and a filed patent. Hands-on experience in OWASP Top 10, incident detection, vulnerability assessment, and security research. Proficient in Kali Linux, Burp Suite, Metasploit, Wireshark, and OWASP ZAP. Seeking SOC Analyst / VAPT roles.

TECHNICAL SKILLS

Security Tools: Kali Linux, Metasploit, Burp Suite, Wireshark, OWASP ZAP, Nmap, Nessus, WebGoat

VAPT: Penetration Testing, Web Security, SQLi, XSS, CSRF, OWASP Top 10

SOC & Monitoring: Threat Analysis, Incident Detection, Log Analysis, IDS/IPS, Vulnerability Scanning

Networking: TCP/IP, Firewalls, VPN, DNS, HTTP/HTTPS

Programming: Python, C, Bash

Frameworks: OWASP, NIST Cybersecurity Framework

PROFESSIONAL EXPERIENCE

Cybersecurity Intern – Redynox (Aug 2024 – Nov 2024)

- Identified **15+ critical/high vulnerabilities** (SQLi, XSS, CSRF) via OWASP Top 10 testing
 - Performed manual & automated pentesting using OWASP ZAP & WebGoat
 - Conducted threat analysis, risk assessment, and prepared detailed vulnerability reports (PoC + remediation)
 - Validated fixes via re-testing and collaborated with developers
 - Gained exposure to SOC workflows, security monitoring, and incident documentation
-

PROJECTS

Web Application VAPT – OWASP Top 10

- Performed end-to-end vulnerability assessment using Burp Suite, ZAP, Metasploit
- Generated reports with CVSS scores, attack vectors, and remediation strategies

BullyDetectX – Cyberbullying Detection System (IEEE)

- Built federated learning system with BERT + XAI for multilingual detection
- Ensured privacy-preserving training with severity-aware classification

Parallel Brute-Force Decryption Tool (IEEE)

- Developed multi-threaded cryptographic cracking tool with grammar validation
- Improved efficiency over sequential approaches

Solar Power EV Charging Station (Patent Filed)

- Designed IoT-based solar EV charging system with monitoring
-

EDUCATION

B.Tech – Computer Science Engineering (Cybersecurity)

Kalasalingam Academy of Research and Education (2022–2026)

CERTIFICATIONS & ACHIEVEMENTS

- IEEE Published Author (3 papers)
 - Patent Filed – Solar EV Charging System
 - OWASP Top 10 Practical Testing (Internship + Projects)
 - TryHackMe / HackTheBox – CTF & Labs
-
